ULSTER COUNTY RESOURCE RECOVERY AGENCY RESOLUTION NO. 2516

Re: Local Solid Waste Management Plan (LSWMP) Adoption, State Environmental Quality Review Act (SEQRA) Compliance, Authorizing and Approving Negative Declaration Regarding Updated LSWMP -for Ulster County Resource Recovery Agency (UCRRA).

WHEREAS, the Ulster County Resource Recovery Agency (the "Agency") is the designated Planning Unit for Ulster County and is carrying out the Local Solid Waste Management Plan (LSWMP), and the preparation and financing of the ten year update for the LSWMP, and

WHEREAS, the Agency has prepared and submitted the updated LSWMP to NYSDEC and has received approval and the NYSDEC has instructed the Agency to formally adopt the LSWMP, and

WHEREAS, the Agency recognizes that the formal adoption of the LSWMP is an Action subject to review pursuant to Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, commonly known collectively as the New York State Environmental Quality Review Act ("SEQRA"), and

WHEREAS, the Agency has conducted prior review under SEQRA regarding the original LSWMP and subsequent revisions thereto, and

WHEREAS, the Agency has completed the update to the LSWMP in accordance with 6 NYCRR Part 366 including performing all required public participation, and

WHEREAS, the Agency has received and reviewed the full EAF, including Parts II and III (the "FEAF"), and the FEAF, in the form presented to the Agency is incorporated by reference into this Resolution, and

WHEREAS, the LSWMP as a planning document with no specific construction or ground disturbance, the adoption of the LSWMP update will not cause significant adverse impacts, and

WHEREAS, a determination that the update to the LSWMP will not cause significant adverse impacts is consistent with Agency determinations regarding prior LSWMP updates.

NOW, THEREFORE, BE IT

RESOLVED, that the Ulster County Resource Recovery Agency hereby finds and determines a) that the Action consisting of the adoption of the LSWMP is a Type I Action as defined by SEQRA; b) that the Agency intends to be the Lead Agency for a coordinated SEQRA review and will circulate Lead Agency notifications to NYSDEC and the Ulster County Legislature, c) that the FEAF does not identify any significant adverse environmental impacts; d) an Environmental Impact Statement is not required for the Action; and e) the Negative Declaration annexed hereto and made a part hereof will be issued, and be it

FURTHER RESOLVED, that the Negative Declaration annexed hereto be and the same hereby is, authorized and approved, and the Executive Director, is hereby authorized to take all steps necessary to implement this resolution, and be it

FURTHER RESOLVED, this resolution sha	ll take effect immediately.

FULL ENVIRONMENTAL ASSESSMENT FORM (FEAF)

ULSTER COUNTY RESOURCE RECOVERY AGENCY ADOPTION OF LOCAL SOLID WASTE MANAGEMENT PLAN (LSWMP)

FEAF SUPPORTING NARRATIVE

Proposed Action:

Adopt the February 2020 update to the Local Solid Waste Management Plan (LSWMP) for the planning period of 2020 to 2029 ("The Action"). The Plan was prepared in accordance with the requirements of 6 NYCRR 366 and has been approved by the NYSDEC. The LSWMP includes an implementation schedule. The LSWMP has been the subject of Public Participation in accordance with 6 NYCRR 366. The LSWMP does not authorize any specific new construction project and no ground disturbance will occur through the formal adoption of the Plan. Future projects must be authorized by Solid Waste Management Facility Permits issued by NYSDEC.

The LSWMP addresses all of Ulster County and the villages, towns and cities within the County.

Project Sponsor:

Ulster County Resource Recovery Agency

P.O. Box 6219 999 Flatbush Road

Kingston, New York 12402

The following supplements and clarifies the corresponding sections of the Full Environmental Assessment Form (FEAF). The Action is limited to adoption of the LSWMP. As such, there is no specific construction or ground disturbance that will occur through the adoption of the LSWMP. Much of the FEAF is therefore not relevant to the Action.

Further, the LSWMP addresses the entire County and member villages, cities and towns. There is no specific site to evaluate with respect to baseline environmental conditions or potential adverse impacts.

Lastly, the solid waste management planning process set forth in 6 NYCRR 366 requires extensive public outreach and public input very similar to the SEQRA process.

FEAF:

FEAF Section	Clarification
C.1	Instructions state that if the Action is adoption of a plan, responses are not to be provided for Sections D & E.
C.2	Adopted Land Use Plans. Most municipalities within the County have adopted Comprehensive Land Use Plans.
C.3	The LSWMP is a County-wide planning document.
C.4	The LSWMP is a County-wide planning document.

Full Environmental Assessment Form Part 1 - Project and Setting

Instructions for Completing Part 1

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either "Yes" or "No". If the answer to the initial question is "Yes", complete the sub-questions that follow. If the answer to the initial question is "No", proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the applicant or project sponsor to verify that the information contained in Part 1 is accurate and complete.

Describe:			
		1	1

c. Is the project site presently used by members of the community for public recreation? i. If Yes: explain:	□Yes□No
d. Are there any facilities serving children, the elderly, people with disabilities (e.g., schools, hospitals, licensed day care centers, or group homes) within 1500 feet of the project site? If Yes, i. Identify Facilities:	∐Yes∏No
e. Does the project site contain an existing dam? If Yes: i. Dimensions of the dam and impoundment:	□Yes□No
 Dam height: Dam length: Surface area: feet acres 	
Volume impounded: jui. Dam's existing hazard classification: juii. Provide date and summarize results of last inspection:	
	ř
f. Has the project site ever been used as a municipal, commercial or industrial solid waste management facility, or does the project site adjoin property which is now, or was at one time, used as a solid waste management facil If Yes:	□Yes□No ity?
i. Has the facility been formally closed?If yes, cite sources/documentation:	□Yes□ No
ii. Describe the location of the project site relative to the boundaries of the solid waste management facility:	
iii. Describe any development constraints due to the prior solid waste activities:	
 g. Have hazardous wastes been generated, treated and/or disposed of at the site, or does the project site adjoin property which is now or was at one time used to commercially treat, store and/or dispose of hazardous waste? If Yes: i. Describe waste(s) handled and waste management activities, including approximate time when activities occurre 	☐ Yes ☐ No
	u:
h. Potential contamination history. Has there been a reported spill at the proposed project site, or have any remedial actions been conducted at or adjacent to the proposed site? If Yes:	☐Yes☐ No
 i. Is any portion of the site listed on the NYSDEC Spills Incidents database or Environmental Site Remediation database? Check all that apply: 	□Yes□No
☐ Yes - Spills Incidents database Provide DEC ID number(s): ☐ Yes - Environmental Site Remediation database Provide DEC ID number(s):	
invertiler database	
☐ Neither database ii. If site has been subject of RCRA corrective activities, describe control measures:	
invertiler database	□Yes□No

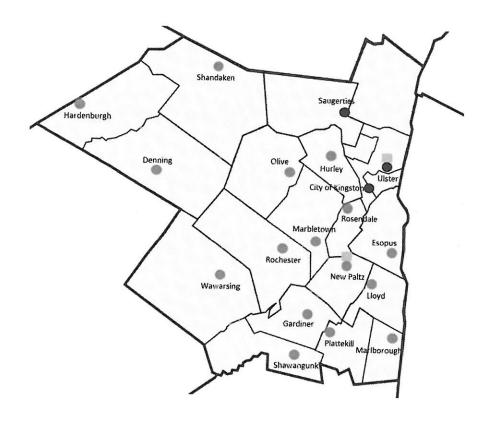

v. Is the project site subject to an institutional control limiting property uses?	□Yes□No
If yes, DEC site ID number:	LI I CSLINO
 Describe the type of institutional control (e.g., deed restriction or easement): Describe any use limitations: 	
Describe any use limitations: Describe any engineering controls:	
Will the project affect the institutional or engineering controls in place?	DV. DN.
• Explain:	☐ Yes ☐ No
E.2. Natural Resources On or Near Project Site	
a. What is the average depth to bedrock on the project site?	
b. Are there bedrock outcroppings on the project site?	
If Yes, what proportion of the site is comprised of bedrock outcroppings?	☐ Yes ☐ No
c. Predominant soil type(s) present on project site:	%
	_%
1 With the state of the state o	%
d. What is the average depth to the water table on the project site? Average:feet	
e. Drainage status of project site soils: Well Drained: % of site	
Moderately Well Drained: % of site	
Poorly Drained % of site	
f. Approximate proportion of proposed action site with slopes: 0-10%: % of site	
☐ 10-15%: % of site ☐ 15% or greater: % of site	
g. Are there any unique geologic features on the project site?	
If Yes, describe:	☐Yes☐No
h. Surface water features.	
i. Does any portion of the project site contain wetlands or other waterbodies (including streams, rivers, ponds or lakes)?	□Yes□No
ponds or lakes)? ii. Do any wetlands or other waterbodies adjoin the project site?	100_110
If Yes to either <i>i</i> or <i>ii</i> , continue. If No, skip to E.2.i.	☐Yes ☐No
iii. Are any of the wetlands or waterbodies within or adjoining the project site regulated by any federal	
	□Yes□No
iv. For each identified regulated wetland and waterbody on the project site, provide the following information:	
Classification	
Lakes or Ponds: Name Classification Classification	
Lakes or Ponds: Name Wetlands: Name Wetland No. (if regulated by DEC) Classification Classification Approximate Size	
Lakes or Ponds: Name Wetlands: Name Wetland No. (if regulated by DEC) Are any of the above water bodies listed in the most recent compilation of NYS water quality immained	
Lakes or Ponds: Name Classification Wetlands: Name Approximate Size Wetland No. (if regulated by DEC) Are any of the above water bodies listed in the most recent compilation of NYS water quality-impaired waterbodies?	□Yes□No
Lakes or Ponds: Name Wetlands: Name Wetland No. (if regulated by DEC) Are any of the above water bodies listed in the most recent compilation of NYS water quality-impaired waterbodies?	□Yes□No
Lakes or Ponds: Name Wetlands: Name Wetland No. (if regulated by DEC) Are any of the above water bodies listed in the most recent compilation of NYS water quality-impaired waterbodies? f yes, name of impaired water body/bodies and basis for listing as impaired:	□Yes□No
Lakes or Ponds: Name Wetlands: Name Wetland No. (if regulated by DEC) Are any of the above water bodies listed in the most recent compilation of NYS water quality-impaired waterbodies? f yes, name of impaired water body/bodies and basis for listing as impaired: Is the project site in a designated Floodway?	□Yes □No
Lakes or Ponds: Name Wetlands: Name Wetland No. (if regulated by DEC) Are any of the above water bodies listed in the most recent compilation of NYS water quality-impaired waterbodies? f yes, name of impaired water body/bodies and basis for listing as impaired: Is the project site in a designated Floodway? Is the project site in the 100-year Floodplain?	□Yes□No
Lakes or Ponds: Name Wetlands: Name Wetland No. (if regulated by DEC) Are any of the above water bodies listed in the most recent compilation of NYS water quality-impaired waterbodies? f yes, name of impaired water body/bodies and basis for listing as impaired: Is the project site in a designated Floodway? Is the project site in the 100-year Floodplain?	□Yes □No
Lakes or Ponds: Name Wetlands: Name Wetland No. (if regulated by DEC) Are any of the above water bodies listed in the most recent compilation of NYS water quality imposing	□Yes □No □Yes □No □Yes □No

m. Identify the predominant wildlife species that occupy or use the project site	:: N/A	
n. Does the project site contain a designated significant natural community?If Yes:i. Describe the habitat/community (composition, function, and basis for designated for the community).		N/A Yes No
ii. Source(s) of description or evaluation:iii. Extent of community/habitat:		
• Currently:	acres	
Following completion of project as proposed:	acres	
• Gain or loss (indicate + or -):	acres	
 o. Does project site contain any species of plant or animal that is listed by the f endangered or threatened, or does it contain any areas identified as habitat fo If Yes: i. Species and listing (endangered or threatened): 	r an endangered or threatened sp	
p. Does the project site contain any species of plant or animal that is listed by special concern?	NYS as rare, or as a species of	□Yes□No
If Yes:		
i. Species and listing:		
q. Is the project site or adjoining area currently used for hunting, trapping, fishi If yes, give a brief description of how the proposed action may affect that use:	ng or shell fishing?	□Yes □No
E.3. Designated Public Resources On or Near Project Site		
a. Is the project site, or any portion of it, located in a designated agricultural dis	trict cartified purquent to	□Vas□Na
Agriculture and Markets Law, Article 25-AA, Section 303 and 304? If Yes, provide county plus district name/number:	-	□Yes □No
b. Are agricultural lands consisting of highly productive soils present?		□Yes□No
i. If Yes: acreage(s) on project site?		
ii. Source(s) of soil rating(s):		
c. Does the project site contain all or part of, or is it substantially contiguous to Natural Landmark? If Yes:	o, a registered National	□Yes□No
i. Nature of the natural landmark: Biological Community	Geological Feature	
ii. Provide brief description of landmark, including values behind designation	and approximate size/extent:	
d. Is the project site located in or does it adjoin a state listed Critical Environment If Yes:i. CEA name:		□Yes□No
ii. Basis for designation:		
iii. Designating agency and date:		
		The second of th

e. Does the project site contain, or is it substantially contiguous to, a be which is listed on the National or State Register of Historic Places, Office of Parks, Recreation and Historic Preservation to be eligible If Yes: i. Nature of historic/archaeological resource: Archaeological Site ii. Name: iii. Brief description of attributes on which listing is based:	or that has been determined by the Commiss for listing on the State Register of Historic	Yes No Sioner of the NYS Places?
f. Is the project site, or any portion of it, located in or adjacent to an a archaeological sites on the NY State Historic Preservation Office (S	HPO) archaeological site inventory?	□Yes□No
g. Have additional archaeological or historic site(s) or resources been If Yes: i. Describe possible resource(s): ii. Basis for identification:		∐Yes∐No
h. Is the project site within fives miles of any officially designated and scenic or aesthetic resource?If Yes: i. Identify resource:		□Yes□No
ii. Nature of, or basis for, designation (e.g., established highway over etc.):iii. Distance between project and resource:		r scenic byway,
iii. Distance between project and resource:	niles.	
 i. Is the project site located within a designated river corridor under the Program 6 NYCRR 666? If Yes: i. Identify the name of the river and its designation: 	e Wild, Scenic and Recreational Rivers	☐ Yes ☐ No
ii. Is the activity consistent with development restrictions contained in	6NYCRR Part 666?	∐Yes∐No
F. Additional Information Attach any additional information which may be needed to clarify you If you have identified any adverse impacts which could be associated measures which you propose to avoid or minimize them.		npacts plus any
G. Verification I certify that the information provided is true to the best of my knowled	dge.	
Applicant/Sponsor Name Ulster County Resource Recovery Agency	Date	
Signature	Title	

The following figure below shows municipal transfer stations in relation to the two UCRRA operated transfer stations in Town of Ulster and New Paltz.

Full Environmental Assessment Form Part 2 - Identification of Potential Project Impacts

	Agency Use Only [If applicable]
Project :	
Date:	

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

1. Impact on Land Proposed action may involve construction on, or physical alteration of, the land surface of the proposed site. (See Part 1. D.1) If "Yes", answer questions a - j. If "No", move on to Section 2.	∠ NC) 🗆	YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may involve construction on land where depth to water table is less than 3 feet.	E2d		
b. The proposed action may involve construction on slopes of 15% or greater.	E2f		
c. The proposed action may involve construction on land where bedrock is exposed, or generally within 5 feet of existing ground surface.	E2a		
d. The proposed action may involve the excavation and removal of more than 1,000 tons of natural material.	D2a		
e. The proposed action may involve construction that continues for more than one year or in multiple phases.	Dle		
f. The proposed action may result in increased erosion, whether from physical disturbance or vegetation removal (including from treatment by herbicides).	D2e, D2q		
g. The proposed action is, or may be, located within a Coastal Erosion hazard area.	Bli		
h. Other impacts:			

2.	Impact on Geological Features			
	The proposed action may result in the modification or destruction of, or inhibit access to, any unique or unusual land forms on the site (e.g., cliffs, dunes, minerals, fossils, caves). (See Part 1. E.2.g) If "Yes", answer questions a - c. If "No", move on to Section 3.	it Z NO		YES
	If Tes, unswell questions a - c. If No, move on to section 5.	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. I	Identify the specific land form(s) attached:	E2g		
1	The proposed action may affect or is adjacent to a geological feature listed as a registered National Natural Landmark. Specific feature:	ЕЗс		
c.	Other impacts:			
			.,,,	
3.	Impacts on Surface Water The proposed action may affect one or more wetlands or other surface water bodies (e.g., streams, rivers, ponds or lakes). (See Part 1. D.2, E.2.h) If "Yes", answer questions a - l. If "No", move on to Section 4.	∠ NC	· 🗆	YES
		Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. 7	The proposed action may create a new water body.	D2b, D1h		0
	The proposed action may result in an increase or decrease of over 10% or more than a 10 acre increase or decrease in the surface area of any body of water.	D2b		
	The proposed action may involve dredging more than 100 cubic yards of material from a wetland or water body.	D2a		
	The proposed action may involve construction within or adjoining a freshwater or tidal wetland, or in the bed or banks of any other water body.	E2h		
	The proposed action may create turbidity in a waterbody, either from upland erosion, runoff or by disturbing bottom sediments.	D2a, D2h		
	The proposed action may include construction of one or more intake(s) for withdrawal of water from surface water.	D2c		
	The proposed action may include construction of one or more outfall(s) for discharge of wastewater to surface water(s).	D2d		
	The proposed action may cause soil erosion, or otherwise create a source of stormwater discharge that may lead to siltation or other degradation of receiving water bodies.	D2e		
	The proposed action may affect the water quality of any water bodies within or downstream of the site of the proposed action.	E2h		
	The proposed action may involve the application of pesticides or herbicides in or around any water body.	D2q, E2h		
	The proposed action may require the construction of new, or expansion of existing, wastewater treatment facilities.	D1a, D2d		

l. Other impacts:			_
4. Impact on groundwater The proposed action may result in new or additional use of ground water, or may have the potential to introduce contaminants to ground water or an aquife (See Part 1. D.2.a, D.2.c, D.2.d, D.2.p, D.2.q, D.2.t) If "Yes", answer questions a - h. If "No", move on to Section 5.	√ NC er.)	YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
 a. The proposed action may require new water supply wells, or create additional demand on supplies from existing water supply wells. 	D2c		
 b. Water supply demand from the proposed action may exceed safe and sustainable withdrawal capacity rate of the local supply or aquifer. Cite Source: 	D2c		П
c. The proposed action may allow or result in residential uses in areas without water and sewer services.	D1a, D2c		
d. The proposed action may include or require wastewater discharged to groundwater.	D2d, E2l		
e. The proposed action may result in the construction of water supply wells in locations where groundwater is, or is suspected to be, contaminated.	D2c, E1f, E1g, E1h		0
f. The proposed action may require the bulk storage of petroleum or chemical products over ground water or an aquifer.	D2p, E2l		
g. The proposed action may involve the commercial application of pesticides within 100 feet of potable drinking water or irrigation sources.	E2h, D2q, E2l, D2c		
h. Other impacts:			
5. Impact on Flooding The proposed action may result in development on lands subject to flooding. (See Part 1. E.2) If "Yes", answer questions a - g. If "No", move on to Section 6.	✓ NO		YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may result in development in a designated floodway.	E2i		
b. The proposed action may result in development within a 100 year floodplain.	E2j		
c. The proposed action may result in development within a 500 year floodplain.	E2k		
 d. The proposed action may result in, or require, modification of existing drainage patterns. 	D2b, D2e		
e. The proposed action may change flood water flows that contribute to flooding.	D2b, E2i, E2j, E2k	0	
f. If there is a dam located on the site of the proposed action, is the dam in need of repair,	Ele		

σ	Other impacts:			
	Other impacts.			
6.	Impacts on Air			
17705.20	The proposed action may include a state regulated air emission source. (See Part 1. D.2.f., D.2.h, D.2.g) If "Yes", answer questions a - f. If "No", move on to Section 7.	NO) []YES
		Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a.]	If the proposed action requires federal or state air emission permits, the action may also emit one or more greenhouse gases at or above the following levels: i. More than 1000 tons/year of carbon dioxide (CO ₂) ii. More than 3.5 tons/year of nitrous oxide (N ₂ O) iii. More than 1000 tons/year of carbon equivalent of perfluorocarbons (PFCs) iv. More than .045 tons/year of sulfur hexafluoride (SF ₆) v. More than 1000 tons/year of carbon dioxide equivalent of hydrochloroflourocarbons (HFCs) emissions vi. 43 tons/year or more of methane	D2g D2g D2g D2g D2g D2g		
i	The proposed action may generate 10 tons/year or more of any one designated hazardous air pollutant, or 25 tons/year or more of any combination of such hazardous air pollutants.	D2g		
1	The proposed action may require a state air registration, or may produce an emissions rate of total contaminants that may exceed 5 lbs. per hour, or may include a heat source capable of producing more than 10 million BTU's per hour.	D2f, D2g		
d. T	The proposed action may reach 50% of any of the thresholds in "a" through "c", bove.	D2g

The proposed action may result, directly or indirectly, in increased development potential or pressure on farmland. g. The proposed project is not consistent with the adopted municipal Farmland 	Part I Question(s) E2c, E3b E1a, E1b E3b E1b, E3a E1 a, E1b C2c, C3, D2c, D2d	small impact may occur	to large impact may occur

9. Impact on Aesthetic Resources The land use of the proposed action are obviously different from, or are in sharp contrast to, current land use patterns between the proposed project and a scenic or aesthetic resource. (Part 1. E.1.a, E.1.b, E.3.h.)	√ N	0 [YES
If "Yes", answer questions a - g. If "No", go to Section 10.	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
 a. Proposed action may be visible from any officially designated federal, state, or local scenic or aesthetic resource. 	E3h		
 The proposed action may result in the obstruction, elimination or significant screening of one or more officially designated scenic views. 	E3h, C2b		
c. The proposed action may be visible from publicly accessible vantage points:i. Seasonally (e.g., screened by summer foliage, but visible during other seasons)ii. Year round	E3h		
 d. The situation or activity in which viewers are engaged while viewing the proposed action is: i. Routine travel by residents, including travel to and from work ii. Recreational or tourism based activities 	E3h E2q, E1c		
e. The proposed action may cause a diminishment of the public enjoyment and appreciation of the designated aesthetic resource.	E3h	0	
f. There are similar projects visible within the following distance of the proposed project: 0-1/2 mile ½ -3 mile 3-5 mile 5+ mile	Dla, Ela, Dlf, Dlg		
g. Other impacts:			
10. Impact on Historic and Archeological Resources The proposed action may occur in or adjacent to a historic or archaeological resource. (Part 1. E.3.e, f. and g.) If "Yes", answer questions a - e. If "No", go to Section 11.	√ N0) [YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may occur wholly or partially within, or substantially contiguous to, any buildings, archaeological site or district which is listed on the National or State Register of Historical Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places.	E3e		
b. The proposed action may occur wholly or partially within, or substantially contiguous to, an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory.	E3f		
c. The proposed action may occur wholly or partially within, or substantially contiguous to, an archaeological site not included on the NY SHPO inventory. Source:	E3g	0	

d. Other impacts:			
If any of the above (a-d) are answered "Moderate to large impact may e. occur", continue with the following questions to help support conclusions in Part 3:			
 The proposed action may result in the destruction or alteration of all or part of the site or property. 	E3e, E3g, E3f		
 The proposed action may result in the alteration of the property's setting or integrity. 	E3e, E3f, E3g, E1a, E1b		
iii. The proposed action may result in the introduction of visual elements which are out of character with the site or property, or may alter its setting.	E3e, E3f, E3g, E3h, C2, C3		
 11. Impact on Open Space and Recreation The proposed action may result in a loss of recreational opportunities or a reduction of an open space resource as designated in any adopted municipal open space plan. (See Part 1. C.2.c, E.1.c., E.2.q.) If "Yes", answer questions a - e. If "No", go to Section 12. 	✓ N0	o []YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may result in an impairment of natural functions, or "ecosystem services", provided by an undeveloped area, including but not limited to stormwater storage, nutrient cycling, wildlife habitat.	D2e, E1b E2h, E2m, E2o, E2n, E2p		
b. The proposed action may result in the loss of a current or future recreational resource.	C2a, E1c, C2c, E2q		
 The proposed action may eliminate open space or recreational resource in an area with few such resources. 	C2a, C2c E1c, E2q	0	
d. The proposed action may result in loss of an area now used informally by the community as an open space resource.	C2c, E1c		
e. Other impacts:			
12. Impact on Critical Environmental Areas The proposed action may be located within or adjacent to a critical environmental area (CEA). (See Part 1. E.3.d) If "Yes", answer questions a - c. If "No", go to Section 13.	✓ NO) [YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may result in a reduction in the quantity of the resource or characteristic which was the basis for designation of the CEA.	E3d		
b. The proposed action may result in a reduction in the quality of the resource or characteristic which was the basis for designation of the CEA.	E3d		
c. Other impacts:			П

Full Environmental Assessment Form Part 3 - Evaluation of the Magnitude and Importance of Project Impacts Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity,
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.

Upon review of the information recorded on this EAF, as noted, plus this additional support information	1
and considering both the magnitude and importance of each identified potential impact, it is the conclus as le	ion of the ead agency that:
A. This project will result in no significant adverse impacts on the environment, and, therefore, an statement need not be prepared. Accordingly, this negative declaration is issued.	environmental impact
B. Although this project could have a significant adverse impact on the environment, that impact substantially mitigated because of the following conditions which will be required by the lead agency:	will be avoided or
There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, t declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see	his conditioned negative 6 NYCRR 617.7(d)).
C. This Project may result in one or more significant adverse impacts on the environment, and an statement must be prepared to further assess the impact(s) and possible mitigation and to explore alterna impacts. Accordingly, this positive declaration is issued.	environmental impact tives to avoid or reduce those
