## **COMMUNICATIONS AND ANNOUNCEMENTS**

Zero Waste Committee Meeting is scheduled for Monday, May 10, 2021 at 2:00 PM.

Regular Board Meeting will be held on Monday, May 24, 2021 at 12:00 PM.

Both meetings will be held in person at the Agency's Administrative Office.

## **RECYCLING OUTREACH TEAM PROGRAM UPDATE**

Angelina Peone presented the program update.

She stated that the Team's messaging for this month was to support the launch of the Recycle Right NY campaign. Recycle Right NY campaign is coordinated by the NYS Sustainable Materials Management. This campaign is sponsored by NYS DEC and hosted by SUNY ESF. Recycle Right NY is a collaborative initiative and the Agency is 1 of over 100 participating members on the steering committee for this campaign. The Recycle Right NY is made up of recycling professionals across the state. On Earth Day, Recycle Right NY launched first of its kind, a statewide recycling website. The website can be viewed at [www.recyclerightny.org](http://www.recyclerightny.org). The site addresses recycling confusion and contamination. Angelina continued to explain that the Team incorporates a lot of their messaging for their outreach strategies from the Recycle Right NY campaign. She stated that the Team added a special blog post on the Agency's website sharing the information of the Recycle Right NY campaign. The Team also created an Eco contact list of climate smart organizations in the County; to share the campaign information with. The Team held two seminars this month with the Recycle Right messaging and emphasized the importance to know your local recycling guidelines. Angelina stated it is estimated that the recycling contamination rate in the US is between 10 to 20%.

Angelina provided some other program updates. She showed the Board some of the new signs for the compost demonstration garden. She stated, A Home Guide to Reducing Food Waste is in production and will be provided at the next meeting. The Household Hazardous Waste event was Saturday and 250 residents participated. She stated everyone was very appreciative of the relaunch of the program. The e-waste program reopened on April 10th. There were over 280 drop-offs in total from the last two Saturday collections of e-waste. The Agency is moving forward on the bagging facility and education building. The permits have been approved. The building has been ordered and should be on site in the next week or 2.

Katherine Beinkafner stated she received positive reviews with respect to the Recycle Right class that was in collaboration with the Highland Library. Thirty-three people attended the class.

Lisa Mitten noticed the staff attended the "Creating New Jobs and Enterprises through Zero Waste" webinar and the presentation the County Executive made regarding the New Green Deal for Ulster County. She asked if there were any information pertaining to waste. Angelina responded that she attended the County Executive's speech addressing the Chamber of Commerce, Chamber Breakfast as well. Angelina stated that she noted that in the Green New Deal there were several focus areas in the County Executive's plan, and so many of them tangentially relate to waste and waste management.

Katherine Beinkafner asked how the hazardous waste event went. Charlie Whittaker responded that he, Angie and Tim met with Clean Harbors on Friday before the event. The event went smoothly and was very efficient. Angelina added that several people did cancel their appointments and only one person showed up without an appointment and was advised of the next event. Next event will be Sunday, June 27 from 8am-12pm in Kingston.

## **GENERAL REPORTS**

Tim DeGraff presented the MSW and Recycling Tonnage reports.

Tim suggested to the Board that these reports be provided quarterly instead of monthly due to repetitiveness. He said the Board could advise him at a later date if they wanted the reports provided quarterly.

### **MSW**

	<b>March 2021</b>		
	<b>Target Tonnage</b>	<b>Actual Tonnage</b>	<b>Difference</b>
MSW	10,539 tons	11,827 tons	1,288 tons
Sludge	268 tons	333 tons	65 tons

Tim noted that the Seneca Meadows Landfill was shut down for two days which made the actual tonnage much higher than disposal tons. Charlie Whittaker added to Tim's comment, that besides Seneca Meadows being shut down, High Acres and Ontario were closed as well due to high winds. He stated that the Agency has strong contracts that help in situations like these. He stated all MSW was removed off the floors and there were extra trailers on both sites to help with keeping MSW off the floors.

Tim stated that the year-to-date MSW was over by 1,516 tons and sludge was short 42 tons.

### **Recycling Tonnage**

	<b>March 2021</b>	<b>March 2020</b>
Commingle	148.72 tons	122.44 tons
Glass	51.77 tons	61.33 tons
Mixed News	96.94 tons	102.9 tons
Kingston City Hard Mix	85.55 tons	65.44 tons
OCC	222.25 tons	201.35 tons
Food Waste	161.79 tons	382.56 tons

The Board and staff had a discussion regarding food waste and the Ulster County Food Waste Law. The discussion included who would be responsible for enforcement of the law, haulers, who the law effects and how the Agency has prepared for the law.

**OLD BUSINESS**

None

**NEW BUSINESS**

Tim DeGraff stated he requested a GIS Suitability Analysis Proposal for Landfill Siting. He hopes this study will help better understand the ways a number of environmental and geographic variables impact the potential construction of a solid waste landfill in Ulster County through geospatial analysis. A recent SUNY New Paltz graduate will be providing the mapping services for this work. The following variables and data sources will be taken into consideration to create the maps: areas protected by the NYSDEC including NYC Watershed, the Hudson River, environmental justice communities, and other protected lands and bodies of water, major roads and highways, topography, solid composition and potentially others that arise through the research process. The work will include a geospatial analysis utilizing ESRI's ArcGIS Pro to analyze how these variables interact and demonstrate what areas of the county may be suitable for the potential construction of a solid waste landfill. This project would take about 16 hours. The study will be provided to the Board for review once completed.

Charlie Whittaker advised the Board that he has the permits for the Ulster location and the modification to proceed with the Education and Compost Bagging Building. He stated he will need to update the NYSDEC with an odor plan within 30 days and a fire plan within 60 days.
