Recycling Compliance Report March 2026

- Kevin, Eva, and I finished up our Transfer Station visits around the County. We had the opportunity to meet the operators, watch the operations, and answer questions or concerns. Maintaining a positive relationship and open dialogue with the operators of these facilities will lead to reduced contamination rates and residents getting the correct information as it pertains to recycling.
- All the Agency's Active Haulers have their applications submitted to the agency.
- I have uploaded a PDF to American Printing to have the UCRRA transfer stations inspection form made. The inspection form will consist of three pages. One copy for the UCRRA, one for the driver dumping at the station, and the last one to be mailed to the Hauler. My hope is that these inspection citations will deter drivers from bringing in contaminated loads.
- I discovered two more haulers in the Saugerties area that I am currently investigating.
 - A & B carting is operating out of Catskill but have been aggressively promoting on the Saugerties Facebook page. I left a voicemail and am currently awaiting a response. I will continue to monitor this situation.

- **Ace Carting, which operates out of Fort Ann was in Saugerties picking up County Waste accounts. I am going to reach out to County Waste and see if they borrowed the truck from Ace or subcontracted these accounts out.**
- **I received numerous complaints this month that I am actively investigating and working with the residents to collect video documentation.**
 - **SWDS- Although they are bringing recycling to our Kingston location, I continue to get complaints from numerous residents that they are mixing both MSW and recycling into the same single compact truck. I followed up with this complaint, and I have video evidence of them dumping multiple MSW and recycling containers into the same truck along with the video footage from the residents.**
 - **I received a complaint that Lamela was in the New Paltz area mixing both MSW and recycling on Mondays. I investigated the complaint and concluded that the truck does have dual compartment capabilities. I will be at the New Paltz transfer station to make sure that those capabilities are being utilized.**
- **I sent out letters to the following properties that are not in compliance with the Mandatory Source Separation and Recycling Law.**
 - **111 River Rd**
 - **157 Potter Hill**
 - **182 Vineyard Ave**
 - **205 Potter Hill Rd**
 - **230-234 Vineyard Ave**
 - **276-300 Fosler Rd**

- **12 Ulster Ave**
- **37 Church St**
- **129-135 Western Ave**
- **144 Western Ave**
- **2880 route 32**
- **The following properties have implemented recycling**
 - **1154-1168 Rt 32**
 - **144 Western Ave**
 - **73 North Road**
- **I have been conducting inspections of town parks and with the nice weather approaching I will make it a priority this month to try and get recycling implemented at all parks in the county.**

- **I continue to monitor and document evidence of haulers not complying with the Flow Control Law and the Mandatory Source Separation Law.**
